

**DEPARTMENT OF RACHANA SHARIR**  
**SHREE RMD AYURVEDA COLLEGE & HOSPITAL**

**1.INTRODUCTION**

Subject of Rachana Sharira deals with the Anatomy and its clinical importance of human body. This department focus on the acquaintance of contemporary modern anatomy and Ayurvedic Shareera. It forms the baseline of futuristic doctors to get aware regarding the medical system. The department has well established spacious dissection hall, preservation tank for cadaver preservation along with equipped library, museum, models & specimens for demonstration.

This is the basic subject in the curriculum of BAMS by which we can identify and gain knowledge of Human body parts using dissection methods and become an open-minded researcher and an able clinician. Being the foundation subject, all the basic principles of Ayurveda are encompassed within Rachana-Sharir.

Every student of 1st BAMS, discipline has to perform complete Dissection of Cadaver in a systematic manner during his part of curriculum.

Rachana Sharir is an extremely dynamic and interesting subject to an inquisitive Practitioner and Researcher of Ayurveda. All the medical sciences require more or less basic knowledge of Rachana Sharir. Hence the study is indeed the most important of basic sciences of the life.

**VISION**

- To impart knowledge of human anatomy with applied aspects to the students of UG courses by virtue of Human body dissection.

**MISSION**

- To deliver the knowledge regarding various vital structural details of Human body theoretically and practically.

- Being the most basic subject of all, make the students acquainted with applied and clinical relevant details of Human body.
- To procure as many cadavers for imparting proper education to the students through movement like **Body Donation** activity by various means.
- To promote research and to gain knowledge about the recent advances in the field of anatomy.

## 2. STAFF AND DESIGNATION

SR.NO	NAME OF STAFF	QUALIFICATION	DESIGNATION
1	Dr. Meera R. Nair	M.D.(Ayu)	H.O.D. & Associate Professor
2	Dr. Avni R. Parmar	M.D.(Ayu)	Assistant Professor

## 3. ACADEMIC FACILITIES

- Well equipped dissection hall.
- Museum with models and specimens.
- Bone Library
- Departmental Library

## 4. EXTRA TRAINING PROGRAMMES

- ✓ [ONE DAY SEMINAR/WORKSHOP ON DISSECTION OF CENTRAL NERVOUS SYSTEM conducted on 27th August 2019 by Dr. Kazi from Pune, Maharashtra.](#)
